

# Application

## LG G2

### Go to your Settings

- Touch **Apps**
- Touch **Email**
- Touch the **Menu** icon
- Touch **Settings**
- Select your Northwestel Webmail account

### Change your Mail Servers

- Touch **Incoming Server Settings**
- Change your **Incoming Server Host Name** to pop3.northwestel.net if you are currently using **POP3** settings or imap.northwestel.net for **IMAP** settings
- Select SSL as a **Security Type**
- Change the **Server Port** to 995 for **POP3** or 993 for **IMAP** (if available) then touch **Save**
- Touch **Outgoing Server Settings**
- Change your **SMTP Server** to smtp-auth.northwestel.net
- Choose STARTTLS or TLS as a **Security Type**
- Change your **Port** number to 587
- Touch **Save**

Thank you for updating your Northwestel Webmail security settings. Your device may have already been configured correctly, in which case you may not have had to make any changes to your settings.

# Browser

## LG G2
