

Application

Samsung Galaxy S6

Go to your Settings

- Touch **Apps**
- Touch **Email** then **MORE**
- Touch **Settings**
- Select your Northwestel Webmail account

Change your Mail Servers

- Touch **Incoming server settings**
- Change your **Incoming Server Host Name** to pop3.northwestel.net if you are currently using **POP3** settings or imap.northwestel.net for **IMAP** settings
- Choose SSL as a **Security Type**
- Change the **Server Port** to 995 for **POP3** or 993 for **IMAP**
- Touch **Done**
- Touch **Outgoing Server Settings**
- Change your **SMTP Server** to smtp-auth.northwestel.net
- Choose STARTTLS as a **Security Type** (some devices may call this SSL/TLS)
- Change your **Port** to 587
- Turn on **Require Sign-In** and enter your username and password
- Touch **Done**

Thank you for updating your Northwestel Webmail security settings. Your device may have already been configured correctly, in which case you may not have had to make any changes to your settings.

Browser

Samsung Galaxy S6

Add a Bookmark

- Touch on the **Internet Browser**
- Go to **webmail.northwestel.ca** by typing the web address in your browser
- Select the **Bookmarks** icon
- Touch **Add**
- Enter the desired title and touch **Save**

Thank you for updating your Northwestel Webmail. We're currently hard at work making your Northwestel Webmail even better. We're sure you'll enjoy the new features of your improved service.
